

From 22 September 2019 the Netherlands Chamber of Commerce stamps on export documents will have a renewed layout. This layout contains a new logo corresponding with our new corporate identity. The export document ordering process will not be changed due to this modification.

Examples of stamps and verification

An Examples / sample of the new stamp / stamps can be found below.

Verification of documents can be done on the verification website of ICC-WCF (International Chamber of Commerce) <https://certificates.iccwbo.org/>

The verification process is still the same as from the start in 2014. That means that manual documents (only 9% of the total) cannot be found on the verification website.
